## Objectives

I am a passionate and self-motivated person. I have a strong curiosity and am capable of socializing and communicating well. I am always enthusiastic and able to align my understanding and abilities in information technology with social life, as evidenced by several organizational projects and internships I have completed. As part of my self-development efforts, I also participate in various self-development programs related to my field of study, which is Information Technology.

## Education

Graduated from **State High School of 1 Singgahan Tuban** with a **Science** program in 2020. Currently an active student at the **State Polytechnic of Malang** with a major in **Information Technology**, focused on **D-IV Informatics Engineering** study program. Current GPA is 3.68/4.00 (97 Credits).

## Experiences
